Subject: Penny's Little Spot

Tom:

Penny's Little Spot is bonded on the basis of 4.2 acres needing dirt work and seeding and 1 acre seeding only. However, the area (1acre) only considered for seeding was not seeded in a timely manner and now needs to be scarified. In other words the bond calculation is not completely up to date.

On the issue of Steve Hodges obsidian pit; I am going to consider the reclamation on that site complete and will release him and close the file in a letter to that effect as soon as I can get to it. Will you need more than this e-mail in order to stop billing him or citing him?
